

(FOR IMMEDIATE DISTRIBUTION)

3B Medical Introduces Lumin CPAP Mask Cleaner

Winter Haven, Florida, February 7, 2018 - 3B Medical is excited to announce the release of the 3B Lumin. Lumin is the safest, easiest and fastest way to disinfect a CPAP mask and accessories.

Lumin works with a disinfection cycle time of only 5 minutes, no harmful ozone, and a 99.9% kill rate for harmful bacteria, viruses, mold and fungus. Jose Llana, M.D., 3B's National Director of Sales stated that the launch of the Lumin "was a direct result of several pulmonary physicians expressing concern with their COPD patients using an ozone based product". "We wanted to develop a product that would not damage the CPAP machine itself, and had zero risk of exposing a respiratory patient to a lung irritant," Dr. Llana explained. The Lumin will ship commercially on March 1st.

About 3B:

3B Medical is a leader in the development; marketing and distribution of medical products for the treatment of sleep disordered breathing and oxygen therapy.
