

# Lumin™

## CPAP Mask Cleaner

ITEM NO. LM3000

# Clean air, Promise

 **3B™** Medical, Inc.

[www.3Bproducts.com](http://www.3Bproducts.com)

## Ozone Free

Ozone is a very strong lung irritant. Your pulmonary physician referrals prefer that you provide their patients with an ozone-free disinfecting device

## High Margin

Lumin offers a dealer the easiest path to changing the profitability of servicing sleep therapy patients by adding a cash retail product with very high margins.

## Safe

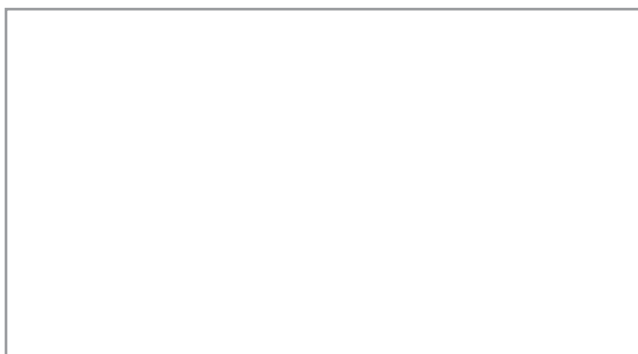

Lumin relies on UVC to disinfect. Unlike other methods, Lumin does not use a toxic and harmful gas and is the safest disinfection method available.

## Fast & Easy

With a 5 minute cycle it is the fastest and easiest method to sanitize CPAP accessories on the market. Lumin is also a great option for personal care items (i.e. nebulizer, hearing aids, toys, cell phones).
