**Travel Compliance Letter for React Health Medical
Devices**

To whom it may concern:

React Health’s continuous positive airway pressure (CPAP) machines and portable oxygen concentrators (POC) are medical devices prescribed for use on or by the order of a physician and are cleared for sale by the U.S. Food and Drug Administration, a branch of the Federal Government of the United States of America.

The U.S. Department of Transportation (DOT) Final Rule, “Non-discrimination on the Basis of Disability in Air Travel” (73 FR 27614 which updates Title 14 CFR Part 382), effective May 13, 2009, provides important new requirements for the accommodation of passengers with respiratory assistive devices.

Specifically, CPAP and POC devices may be used on board an aircraft, without further testing by the carrier, provided they have been tested for electromagnetic compatibility (EMC) in accordance with RTCA/DO-160, Section 21, Category M. CPAP and POC devices described in this letter are considered FAA compliant.

React Health Device Name
Luna II (G2) CPAP/APAP Device
Luna G3 CPAP/APAP Device
Luna G3 Bilevel Device
Luna TravelPAP Device
POC2000 Device
